Summary

I am a web developer by passion, skilled in developing user focused frontend and efficient backend. I am currently working as an automation tester and looking for an opportunity to where I can use and improve my web development skill.

Education

College: Parisutham Institute of Technology and Science (Affiliated to **Anna University, Chennai**)

Degree: Bachelor of Engineering in Electronics and Communication Engineering

Graduation year: 2012 - 2016

Work

IBM India Pvt. Ltd.

    I'm working as an Automation in tester. We are using Selenium Protractor for automation.

    We have built an UI framework using Node JS and Angular to make it easy to automate the test cases. As I am familiar with Javascript and Node JS I have been a part of developing the framework along with the developers.

Backend : Node JS   **Frontend**: Angular   **Database**: MySQL

Skills

Languages	Backend	Frontend
Java	Node JS	React JS
Javascript		
Python		

Databases		
SQL	**Version Control**	
Mongo DB	GIT
